MARCH

IN THIS ISSUE

March Highlights

Written by Year 3 students

Social Studies:

"We learnt about the earth. We learnt that there are seven continents and five oceans. We also studied what is a compass rose, the equator line and the prime meridian".

Math:

"We studied place value. I learnt that it is to separate numbers into ones, tens and hundreds. We broke numbers and we also did math problems and subitizing".

English:

"In English, we are working on descriptive writing. We did an activity where we had to describe Oobleck. First, my teacher showed me the Oobleck and we used all our senses. After that, we brainstormed our ideas. Finally, we wrote a description".

Science:

"We studied about the human body and the muscles. The muscles work with our tendons. . There are three types of muscles: skeletal, smooth and cardiac muscles which can be voluntary or involuntary. The voluntary is located in the skeletal muscles because they move when we want them to move. The involuntary are the smooth and the cardiac because they move but we are not always aware. We have over 600 muscles".

Events

April 18th: Harmony day

April 20th: Earth day

April 23rd: St. George's day

April 26th: Día del carabinero

PSHE:

To identify student's own strengths and weaknesses and find out that we are all special.

To appreciate everyone's differences.

To identify and describe what a good friend is.

To identify our emotions and feelings so that we can be able to verbalize them.

Empathy and its importance.
