Year 2

Classroom News

What have we been learning in May?

English

In English we have worked on developing our reading comprehension skills. In writing, we have already started to write our own poems. Before writing our poems, we read the poem "Snowball" by Shel Silverstein.

Science

In Science we have been learning about what is recycling and how we can help our planet. Please help us recycle!

Math

In math we have continued working on developing our number sense by using concrete material and visuals. We have started to add numbers and identify odd and even numbers. We also started our geometry unit by learning about 2D and 3D shapes.

Social Studies

In social studies we have been learning about who we are, our personalities and our tastes and preferences.
