

Year 3

May Issue

May 31st

Content of the month

English:

In English, the class has been learning about personal writing and its structure. Students learnt the parts of a text such as beginning, middle and end. They also studied the time phrases, how to write dialogues and speech bubbles. Children are also learning about prefixes, suffixes and root words.

Math

In Math, children have been learning about three digit addition and subtraction and are now working on multiplication. They are building their understanding of what multiplication means as well as studying different strategies to come up with a result.

Social Studies

In Social Studies, students are working on their understanding of the Chilean indigenous communities. They are also learning some basic concepts to understand how natives used to live in the past and the importance of them in the identity of future generations. They learnt important concepts such as nomad, sedentary, and agriculture as well as relevant traditions.

Science:

In science, the class learnt about the respiratory system, its parts and functions as well as the importance of it to the whole body. They are now working on vertebrates and invertebrates.

Future Events

June 5th-6th: Y7 parent teacher conference

June 15th: Father's day
