Sou um artista 3D especializado em visualização arquitetônica, combinando técnica e criatividade para transformar projetos em imagens realistas e impactantes.

Formado em direção de arte, meu trabalho une estética e funcionalidade, ajudando arquitetos, designers e construtoras a materializarem suas ideias com precisão e beleza.

Há 6 anos tenho o Blender como software básico, que me permite importar arquivos de outros softwares 3d para aprimorar a modelagem, texturização e iluminação.
