

CONTENTS

Notation, 11

Presentation, 15

Preface, 17

Chapter 1 — Introduction, 19

Chapter 2 — Soil - Reinforcement Interaction, 23

2.1 CONCEPTS OF REINFORCED SOIL	23
2.2 CHARACTERISTICS OF GEOSYNTHETICS FOR REINFORCEMENT	24
2.3 SOIL BEHAVIOR	30
2.4 INFLUENCE FACTORS ON REINFORCEMENT TENSION	35

Chapter 3 — Analysis and design, 47

3.1 INTRODUCTION	47
3.2 EXTERNAL STABILITY	47
3.3 INTERNAL STABILITY	49
3.4 DETERMINATION OF MAXIMUM REINFORCEMENT TENSION	51
3.5 DETERMINATION OF THE LOCATION OF REINFORCEMENT MAXIMUM TENSION POINT	61
3.6 PULLOUT ANALYSIS	63
3.7 REINFORCEMENT AND FACING CONNECTIONS	64
3.8 DESIGN RESISTANCE OF REINFORCEMENTS	65
3.9 STRESS INCREMENTS DUE TO SURCHARGE LOADINGS	66
3.10 LATERAL DISPLACEMENT AND STRAIN PREDICTION	71
3.11 CASE STUDIES	75

Chapter 4 — Constructive Aspects, 77

4.1	TYPE OF REINFORCEMENT	77
4.2	TYPE OF FACING AND CONSTRUCTION PROCEDURE	78
4.3	ARRANGEMENT OF REINFORCEMENTS	83
4.4	DRAINAGE SYSTEM	84
4.5	BACKFILL MATERIAL	85
4.6	QUALITY CONTROL AND CONSTRUCTIVE TOLERANCES	88
4.7	GUARDRAILS	88

Chapter 5 — Design Example, 89

5.1	SOIL AND WALL CHARACTERISTICS	89
5.2	EXTERNAL STABILITY ANALYSIS	90
5.3	INTERNAL STABILITY ANALYSIS	93
5.4	COMPARISON OF METHODS FOR REINFORCEMENT TENSION DETERMINATION	98
5.5	WALL FINAL ARRANGEMENT	99

Appendix – Design charts, 101
