Hola!

It’s Kaypacha with the Pele Report. There’s so much going on and today was the first day in many, many years that I didn’t even know it was Wednesday and I had to do a Pele Report...haha. Just got home last night, so let’s just see what’s going on with the bananas. (*laughing)
July 5th, 2017, the Moon is in Sagittarius, nice time for international traveling, oh yeah! Friday, she goes into Capricorn, and she comes up to a whopping full Moon. The big thing I am going to be talking about here today is of course the Moon is going to be coming up to conjunct with Pluto. And we know that Mars was opposite Pluto, and now the Sun is opposite Pluto. We’re going to have a full Moon and it’s going to be a Moon conjunct Pluto, opposite the Sun conjunct Mars, that’s on Saturday, folks. Get ready for a wild, intense, frickin’ weekend – oh my Goddess!

The other thing I want to talk about is that this Mars is also moving through this whole entire week. Mars is in a Yod with Saturn and the South Node of the Moon. Mars going through Cancer - 22, 23, 24 degrees. Saturn is up there in Sagittarius at 23 and the South Node of the Moon is at 24 Aquarius. So, we’ve got a Sagittarius/Aquarius sextile, Saturn sextiling the South Node of the Moon, and then Mars coming up to square it. Shortly after that, Mars is going to come up to a squaring Uranus and trining Chiron, but that’s next week’s report.

Those are the major aspects. I would say last but not least of course that, today, like right now, the Sun is square to Jupiter. That’s the kind of thing that you feel for at least a week. So that has been going on and it will be going on through this whole thing. Bringing just what? More, more, and more – so let’s get into it...

Alright, I don’t want to get to casual here. I try to make these reports professionally, ya know. (*laughing) I was just talking to Blair, I met Blair (Hi Blair) on Salt Spring Island. He looks at my camera and guess what? I put foam, instead of putting it over the microphone on this camera, I put it over the two speakers. I thought that the speakers were microphones. People complain about the wind noise, so I go, I put foam on my microphone and there shouldn’t be any wind noise. It’s been on the frickin’ speakers, man! (*laughing) So I’m going to put foam on the microphone from now on! How about that?! I mean life is just getting better all the frickin’ time... haha!

These times are such... the struggle that I can see happening here, Sun square Jupiter, Sun in Cancer. Sun/Mars in Cancer squaring Jupiter, what’s that? Lazy! You know what? ‘I just kind of want to lay in bed. I want to take a bath, pamper myself a little bit. Make love with my lover or something, Jupiter in Libra ruled by Venus. Cancer, home, my inner child, let’s just bake!’ This is a great month for baking, barbeques, inviting friends over for parties, celebrations and it’s really great, and then what? ‘Oh, I got to clean up...haha. The backyard is a mess. The kitchen is a mess, but I really don’t feel like doing the dishes right now.’ I just want to be lazy, laid back days.

The downside of it is number one this Yod that I’m going to be talking about here, with Mars/Saturn/South Node of the Moon. But also, the Sun and Mars being opposite Pluto. This is where this whole Mantra comes out of this week. It’s the system, “the system”, the job, the rent. Having the office, paying for the website, the marketing materials. Our professional careers, the outside world, the office that we hold. Our reputation or our desire to make
impact. I mean everybody wants to have an impact, especially this North Node of the Moon in Leo. Leo wants to leave a legacy. ‘I want this world to be a different place because I was here.’ And here’s a year and a half of the North Node in Leo, this is a future time. The future is really pointing for each and every one of us to get in touch with our unique, special offerings, and our unique special gifts, and creatively make a change.

But, first you’ve got to pay the rent, you’ve got to buy food, you’ve got to have transportation, you may need to upgrade your computer or pay for your website fees and bills, utilities. It can be a little bit on the demanding side. Here is where we come into what? The defunct system. And this is where I came up with, it’s time to change the system. Let’s just really look at some of the bigger overall pictures.

And the bigger overall plans and this is part of this Yod. Mars inconjunct the South Node of the Moon in Aquarius, we need to be looking at the bigger, wider, broader plan. The South Node of the Moon, Ketu, has to do a little bit with the negative aspects or elements. So, the negative aspects and elements of society, we need to look at and see and address with Saturn up there in Sagittarius, is a new future plan so that we don’t repeat the same mistakes of our forefathers and we don’t keep going around and around and creating systems, institutions, governments that are not meeting the needs of humanity.

And we just look at this, just look at the Federal Reserve System. It’s a bank, it’s not part of the government in the United States of America. What it does, it prints money and as soon as it gives the money to the government to distribute, it charges an additional 10%. So, we start out in debt, there’s no end to debt, when we are using the current dollar system of currency. Did you get that? All you have to do is watch the movie, “Zeitgeist The Movie”, it’s super frickin’ clear. I think “Zeitgeist Addendum”, it’s the second one. It’s more about the money, the banking and the power. And how the Rothchilds, Rockefellers, and all of the JP Morgans. It’s a group, like 13 families or something running the whole frickin’ planet. Enslaving all of the people from the day you’re born. It’s like your born on this planet into slavery.

This is part of what this Age of Aquarius is about. It’s liberation, change and bringing in new systems. These systems are not working. And as long as we are not feeding these systems, we are part of the problem. If you’re not part of the solution, you’re part of the problem. It was absolutely wonderful to be up there, I visited my sister there on Vancouver Island. She wakes up in the morning and her whole yard is a garden. She picks her raspberries, makes her nut milk, she does everything. Hardly goes grocery shopping. I go out to Salt Spring Island and everybody is growing food out there – it’s all about permaculture. I come down here to Costa Rica, it’s all about permaculture. It’s all about living sustainably, off grid. My daughters over there in Earth Haven Farm, oh speaking of which. I am giving a workshop with Tim Halloran, in Asheville, North Carolina, at the end of August. Somebody said I should mention that on the Pele Report. I don’t get to the East Coast very often, this is the only time I’m going to get to the East Coast of the US here in 2017. I don’t know about 2018, but, aye, aye! (*laughing) So many places to see, I like to go to places I’ve never been before. But this is going to explore the
shadow elements of Lucifer and Lilith, in particular. But we have shadow elements all throughout the natal birth chart, and Pluto is one of them. So, let’s get back on track with the Pele Report. http://newparadigmastrology.com/september-1-4-2017-asheville-nc/

This full Moon in opposition to Pluto, the Moon moving through Capricorn. External authorities and the system, the government and Pluto, the big deep pockets, the bankers and Illuminati, it’s just like, boom, boom, boom. ‘You’ve got to do this and pay up.’ This whole axis of Capricorn and Cancer is seeking security, we want to be secure. And let’s face it, man, we’re not. These times are not secure. There’s a lot of greed, there’s a lot of self-interest. There’s a lot out here that’s been kind of implanted, that we’re kind of born into a condition, a situation that we are here to change.

So, the first thing we need to do is identify it, and that’s the second part of this mantra, yeah. That starts with me being able to see without illusions, without pretending, without rose colored glasses, like everything is going to be okay – bullshit! Everything is not going to be okay if we’re sitting on our asses. And going from festival to festivals and doing the happy stuff, all the dancing and the singing, the this and the that. This is this axis, Cancer calls for personal security and for some of that personal security we’ve got to do our Saturn in Sagittarius, our Lilith in Sagittarius. You just wait, I will tell you what’s going on right now, is this Sun/Mars moving through Cancer. And towards the end of July this Mars/Sun conjunction is going to move into Leo and it’s going to come out. And the fireworks are going to start and it’s really going to be something. And they’re going to come around to that Solar Eclipse, it’s going to be a Sun/Mars/North Node, Total Solar Eclipse that’s happening in Leo - the fire sign!

And so, it’s really time and what’s happening now is that we may be simmering and we may be feeling kind of uncomfortable, or kind of insecure, or even maybe angry and upset that, ‘Why can’t I get ahead? Why is there a shortage? Why am I not living in the abundance and the prosperity that I imagine and I know that is possible?’ We’ve got a broken system! And Cancer can stay home and cry about it, but I tell you what? This full Moon conjunct Pluto up in Capricorn is saying, ‘Get our butts there!’

The way I see it happening and I’ll just put myself out there, you know what? We’ve got this whole Pluto generation, Pluto in Virgo generation, the whole soul group. Then we’ve got another soul group of Pluto in Scorpio. Particularly I am looking at these two generations, these two soul groups, kind of born from 1957 to 1972, and then again, from 1984 to 1996. If you’re in that age group right now and if you we’re born during those years, what’s happening is, what does the broken system do? The broken system makes people sick. People are stressed out. People are sick. People are unhealthy and they’re overworked, they’re drained and then the seek drugs, alcohol and all kinds of situations to escape their situation.

So we have this Pluto in Virgo and it’s this whole generation of people that are healers. This is coming in, the healing arts. And then we have what? That whole Pluto in Scorpio generation. The Shamans, the therapists, the people that are really here to deal with the bottom of the
barrel, suicidal tendencies, despair, and really helping people to completely transform their lives and resurrect.

To me what we can do is, as a generation or as soul groups of people bringing in this Age of Aquarius, the Age of Aquarius is about developing our healing arts and our healing capacities. And whether they are dance, music, art, massage, acupressure, all forms of alternative food, nutrition, Yoga, exercise, adventure, entertainment. Think of it, just make it into a therapy. Make it into something that we can market. And this is going to draw people from the cubicles, from their air-conditioned glass buildings and from the cities, the dragon, it’s like pulling them out of the dragon, out of the prison, and they first get exposed to the spiritual realities. On the plane on the way home, man, I watched this movie, “Doctor Strange”, ... haha! You got to check it out, man, awesome, it was really great! I think it was a new release? It was under action and adventure, because I like the action and adventure. F***in’ Dr. Strange, man. Here’s a mainstream, neurosurgeon, hotshot, smartazz. And he gets all messed up and I don’t want to give it away the whole thing. He finds some teachers and some teachings about a greater, greater picture, a greater, greater reality.

So, we work on ourselves and when we work on ourselves, we open our 3rd eye, we open our crown chakra, we are able to see what needs to be done here. People need to be lifted, they need to be awakened. And how are they going to get lifted or awakened while they’re broken, and their miserable and their bodies are falling apart and it’s creating mental disorders and distress and sexual perversions and all kinds of crap going on and it’s like, hello?!

If you want to make a change and make a positive impact and make an effect, we can open up people to alternative beliefs, alternative viewpoints, alternative looking at the world, alternative lifestyles. And the way in is by healing and by really bringing them something that they need and makes them feel good. When wisdom makes you feel good, you’re going to become wise in order to feel good, you know what I’m saying? (*laughing)

We have this, it’s a dilemma and we can feel oppressed. This full Moon period we can feel oppressed, ‘OMG, I’m never going to get out of the hole.’ But you know what? What we’ve got to do is create, the North Node of the Moon in Leo is a very creative time. And as the more we tap into our creative potentials, the more we do our Yoga and mediations and open up our consciousness to see where we can be relevant, where we can be useful, where we are needed and we plug into that. And that’s how we make our money and you charge for your healing arts. And before you know it, we unplug from the system and the system kind of peters out and falls out, the more people are drawn away from it. It’s not about fighting the system, overcoming the system, rebelling against the system. It’s about drawing, attracting everybody away from the system and it will collapse all by itself. Let’s get creative, move into rolls of leadership and healing. And we don’t have to worry about violence and rebellion and all this kind of thing. It’s starting to rain on me, I’m going to wrap it up, man. What is that mantra again?
The Mantra:

It’s time to change the system,
Come up with a whole new plan,
That starts with me being able to see,
Into the future of man.

Self-development, opening the awakening. Developing the creative potential. Offering it to rest of our brothers and sisters. Attracting our brothers and sisters away from the death defying monster of the system. And before you know it, well maybe not before you know it... haha... if we’re frickin’ lucky a little bit before we die... haha. But think about what we’re doing for the future generations - Go for it!

One more time:

It’s time to change the system,
Come up with a whole new plan,
That starts with me being able to see,
Into the future of man.

Namaste, Aloha, So Much Love!

Kaypacha
